

About us

KADE KLIMA was founded in November of 2010. On 1 January, 2011, we took over sales of products manufactured by the GwoYng (PORCH) for spare parts and service tools used in Mobile Air-Conditioning System (HVAC). Since 2015 we handle as well all OE business in Europe with a very strong partner in manufacturing. Since mid 2014 GwoYng formed a joint venture, together with SMP (Standard Motor Products, Inc.), namely Foshan GWOYNG SMP.

Our markets are countries within the European Union, the common market and the Commonwealth of Independent States (former USSR).

In the IAM we deliver to companies that predominantly sell our products under their own brand. We support their buying departments in acquiring these products from China - from their first contact to the shipment of their goods.

Quality

All manufacturing sites of our partners are TS16949-certified.
